

Our Trailers

Your ultimate
bespoke solution

The Sumo Trailer

The **Sumo Trailer** represents a significant milestone for the efficient treatment of medium or larger sized agricultural and horticultural properties. It runs off the 'Power Take Off (PTO)' shaft of the tractor. The PTO drive pump removes the need for an engine and reduces complexity, machine cost as well as running and servicing costs. Farmers absolutely love it!

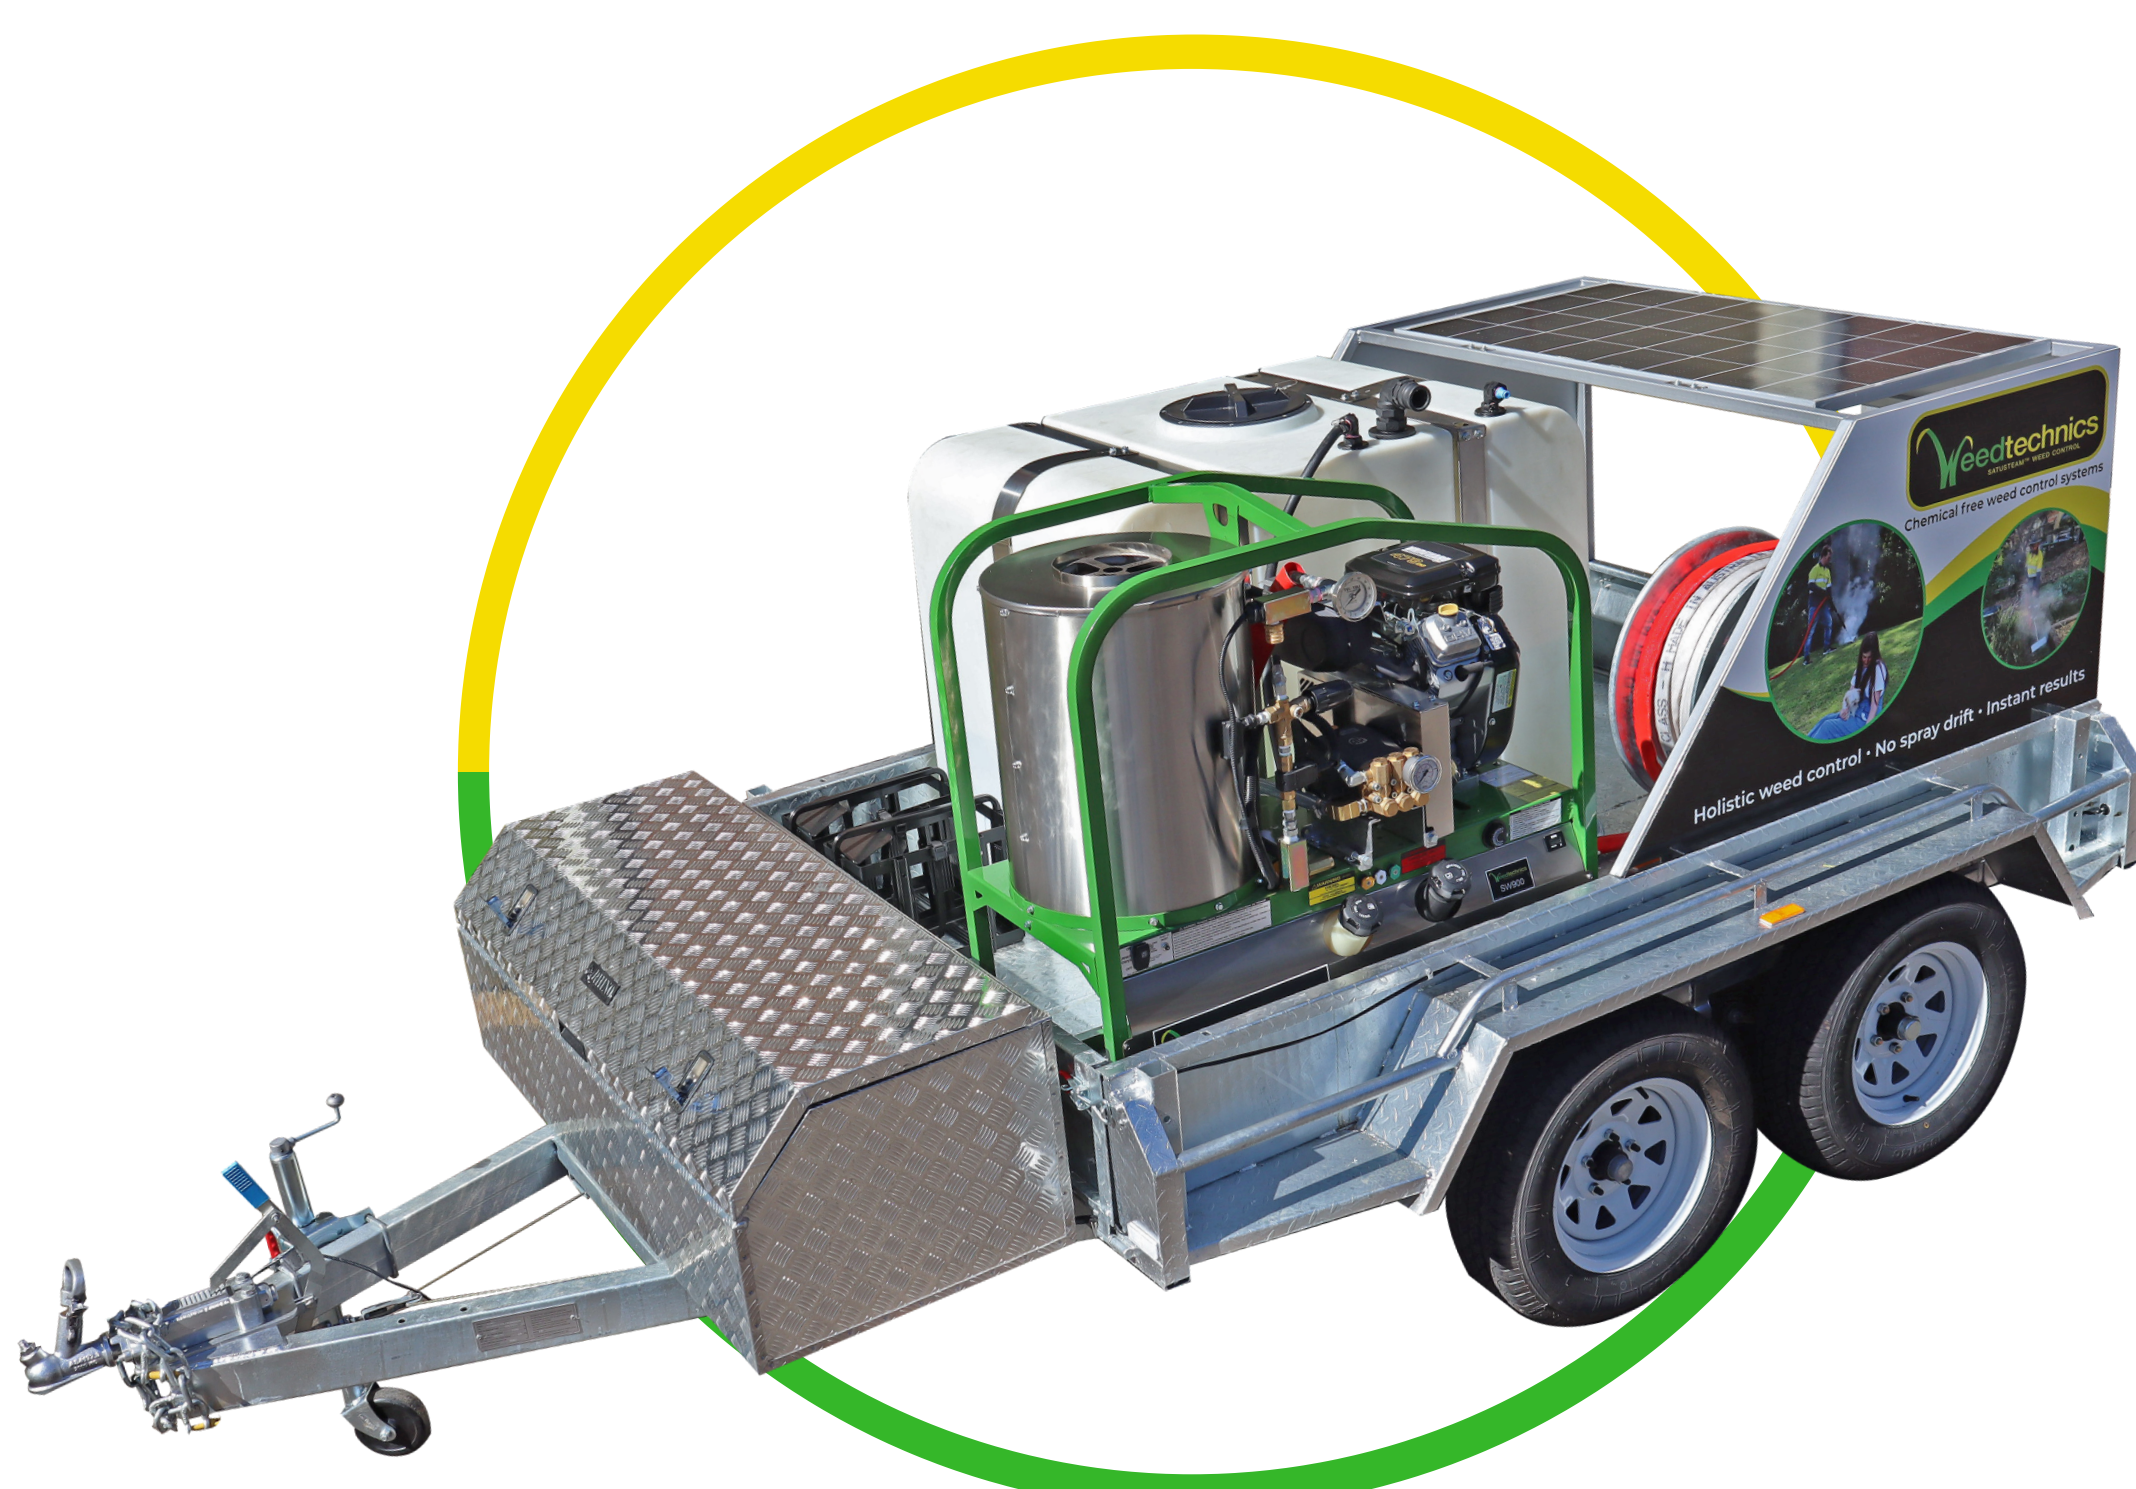

- PTO powered pump
- Simple change from 50mm hitch to agricultural standard ring hitch
- Rated for 3500kg road legal capacity and 6000kg off road capacity
- Available as a road registered agricultural trailer
- 4000L tank with 15 years warranty
- Fully galvanised purpose-built trailer

Self-Tracking Trailer

Engineered with weed control for horticulture and plant nurseries in mind, the self-tracking trailer is well-regarded by horticulturists working in public parks and gardens, nurseries and playgrounds. They have a self tracking steering system that is designed to closely follow the turning radius of the towing vehicle. Surprisingly, these trailers are so responsive to movement that even one person can push a fully loaded trailer with ease, on an even surface.

- 3.5m turning diameter
- Easy manoeuvrability
- High load capacity - 1,245 G.V.M
- Ability to carry any one of our SW 800 or SW900 Satusteam™ weed control machines
- Includes a 800L water tank, 30m insulated hose, cool-touch lance, hose reel and custom-made applicator heads storage.
- Optional extension hoses
- Remote rewind reel

The Sumo Trailer

The **Council Trailer** is one of our hottest selling packages where you get a complete weed control system on a 8x5 trailer, fitted with a big, lockable toolbox that can house all the necessary equipment. There's a Satusteam™ machine (SW900 or SW800) and a solar panel to keep your remote rewinding reel charged at all times, as well. It is very popular with our contractors in and around the country.

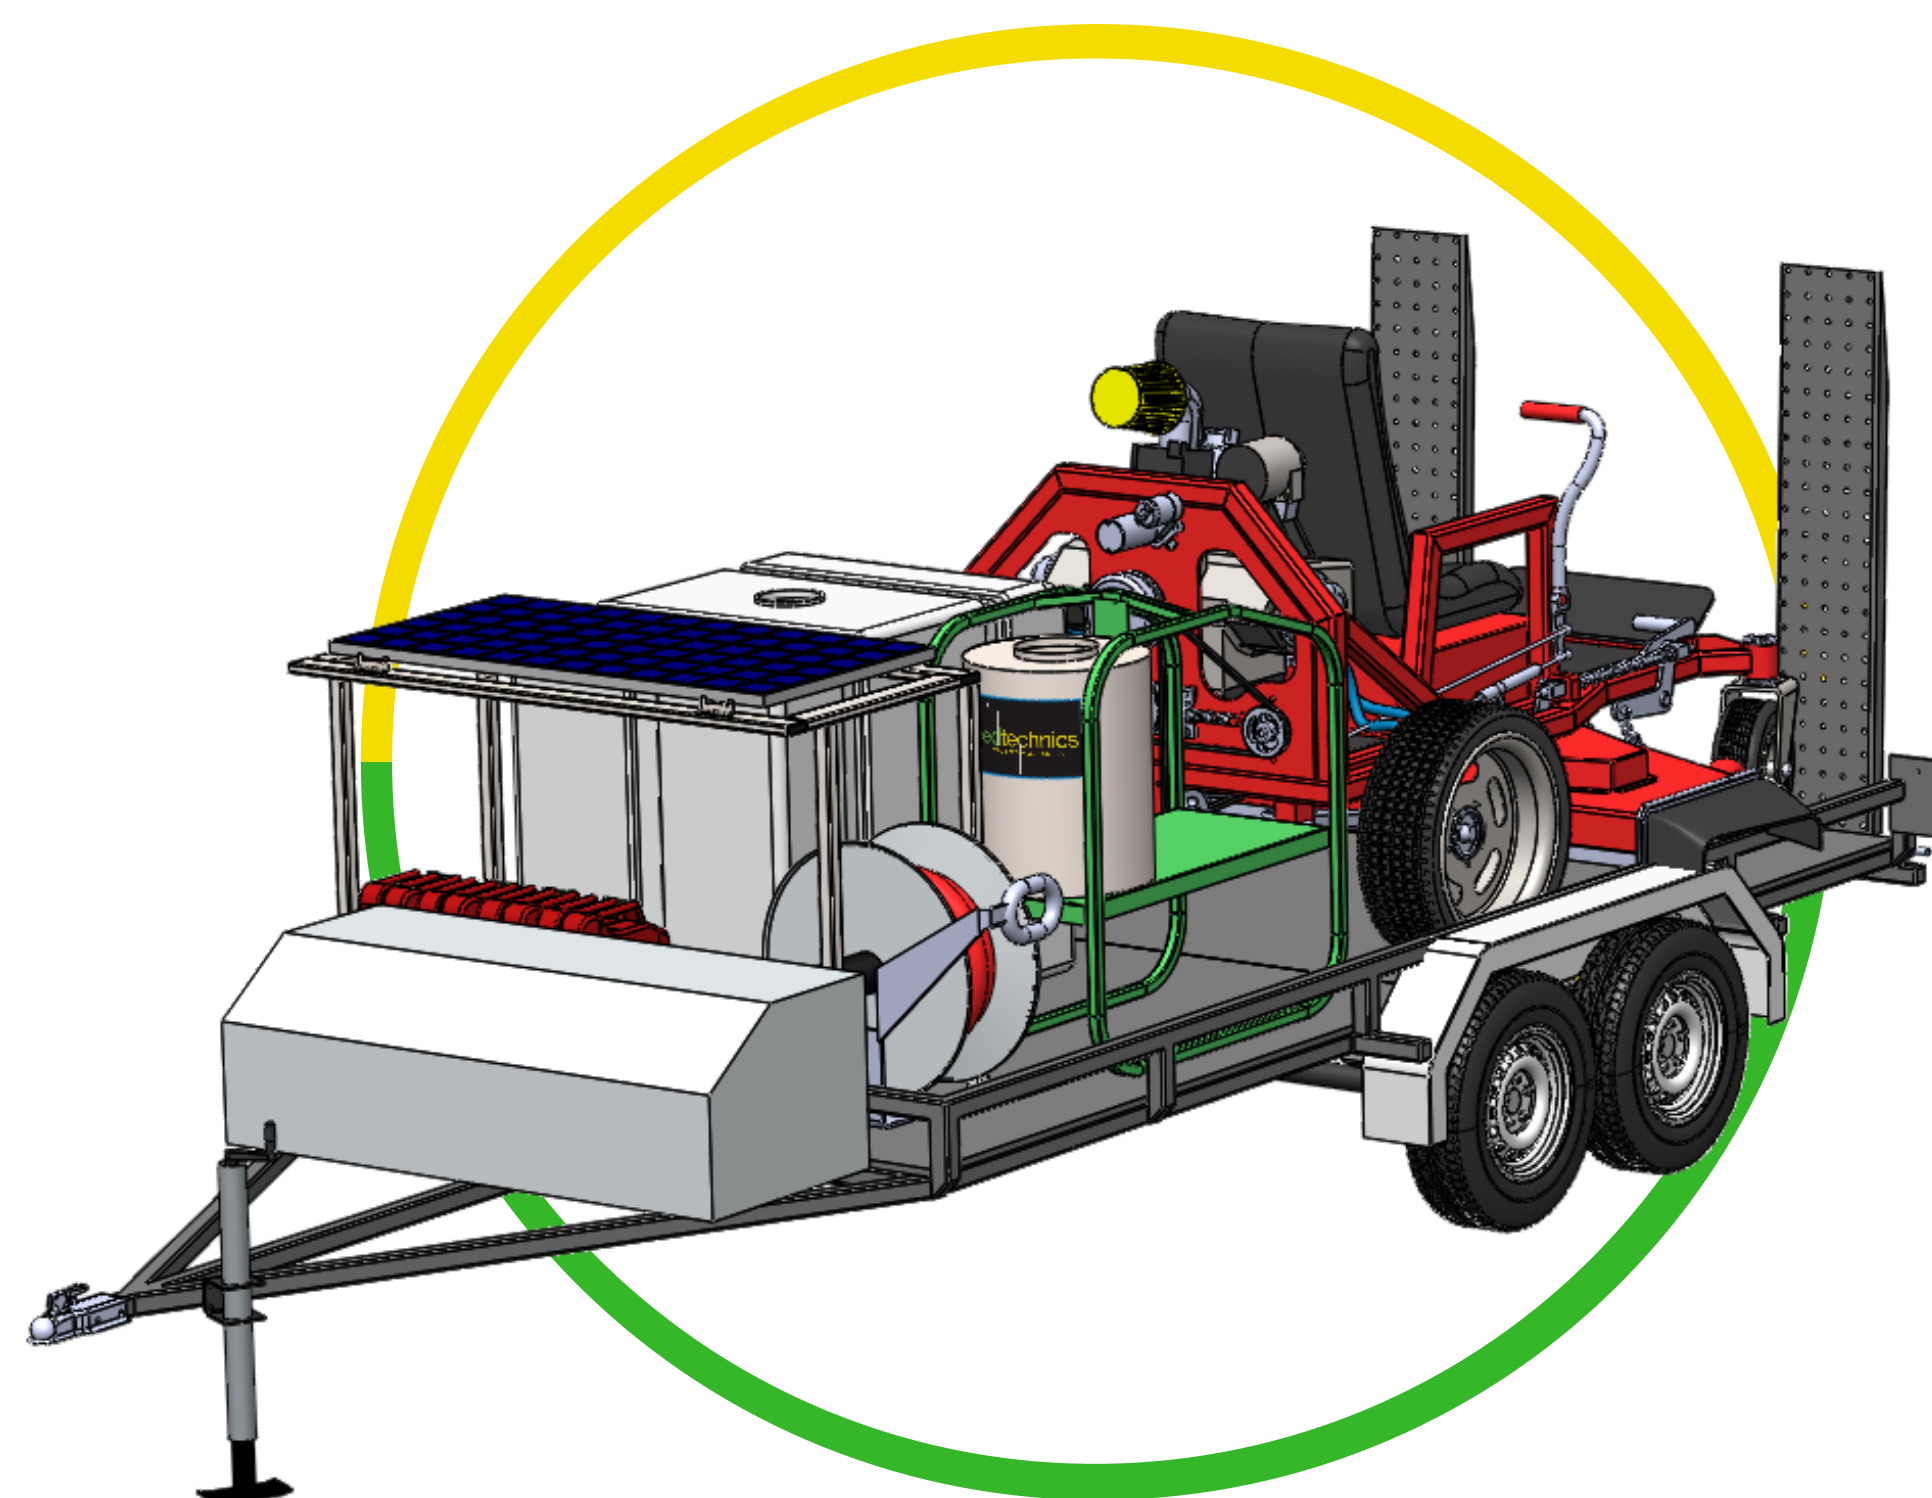

- 160 W Solar Panel
- 12v Solar Battery
- Dual Axle
- Heavy-duty trailer
- 2x Jerry can holders
- Heavy duty suspension
- Lockable toolbox
- 1000 L water tank
- Manual brake
- Jockey wheel

The Green Ninja Trailer

The Easy Ramp Trailer

The Green Ninja & The Easy Ramp Trailers

The Green Ninja Pro (petrol version) and the Green Ninja Stealth (electric variant) are the two models in our range of most compact Satusteam™ machines. Both of them may be fitted onto different types of trailers, as per your requirement. We have two standard go-to trailer options but are always open to customisation. These trailers are highly versatile, designed to enhance the ease of use alongside dynamic performance. They have been specially conceptualised to improve the utility and productivity of the Green Ninja models.

The Green Ninja Trailer comes with

- 500L water tank
- Side ramp and winch
- Tool box
- Galvanised trailer
- Remote rewind reel
- Spare wheel with the trailer

The Easy Ramp Trailer is a heavy duty, 6x4ft box trailer and has

- A 1100mm toolbox
- Electric winch
- 1.6m electric fold down ramp and winch
- Tie down points
- Fold down rear wall/ramp
- 6x4 ft heavy duty box trailer

Custom-built Trailer

We have the expertise to design and build a complete customised weed control solution for you that includes designing trailers that can house your existing or additional landscaping equipment, like whipper-snipper, mower, lawn tractor, ride-on lawn mower, garden tractor etc.

- 14X6.4 Tandem Open Plant Trailer
- All wheel 10" electric brakes
- 1000L water tank
- 1x Satusteam™ machine
- 4x Jerry cans
- 1x Solar panel
- 1x Remote Rewind Reel
- Up to a 700kg mower (approx. W 1.8m/L 2.3m)

Overall, I think this weed killing technology from Weedtechnics is an excellent product- it is environmentally friendly compared to traditional chemical weed control applications, results are faster and it is much safer for the operator.
